Mr. Carlo M. Pastrana

IT Department

Lipa City, Batangas

carlom.pastrana@g.batstate-u.edu.ph

Dear Mr. Pastrana,

I am writing to express my interest in applying for the Front-End Developer position in your department. As a Bachelor of Science in Information Technology major in Service Management student at Batangas State University – TNEU Lipa Campus, I have built a strong foundation in front-end web development, user interface design, and responsive web solutions.

Throughout my academic journey, I have actively contributed to several web-based projects, including RestEase: A Web-Based Cemetery Records and Certificate Management System and OrgReserve: Centralized Reservation and Inventory Management System. In these projects, I worked extensively with HTML, CSS, Bootstrap, and PHP, focusing on crafting functional and visually appealing interfaces that improve user experience. These experiences have strengthened my creativity, attention to detail, and ability to collaborate effectively within a development team.

I am eager to apply my technical skills and passion for design to a professional environment that values innovation and quality. Enclosed is my resume for your review. I would welcome the opportunity to discuss how my skills and enthusiasm can contribute to your department's goals.

Thank you for your time and consideration. I look forward to the possibility of joining your team as a Front-End Developer.

Sincerely,

Lourenz Angel A. Francisco
